About This Manual

Purpose

This document will introduce the user to the additional functions added to
Resource Manager Essentials (RME) 3.N by the Network Analysis Toolkit 3
(NATkit 3) package, up to and including NATkit version 3.1.

Caveats

This document assumes the user has version 3.3 of the *Using Resource Manager
Essentials* manual and *RME 3.3 Installation Guide* available as references.

Who Should Use This Document?

This document should be used by anyone who will administer a NATkit 3 system
or who is interested in understanding more about NATkit 3. It may also be useful
for users with less than administrator access to NATkit 3 with the understanding
that not all commands shown here will be available to users with less than
"admin" level access. For more information about the levels of access available,
refer to version 3.3 of the *Using Resource Manager Essentials* manual. For
instructions on how to install, uninstall, or upgrade NATkit 3, refer to the *NATkit
3 Installation Guide*.

Document Organization

This document is divided into a single chapter that details the components that make up NATkit 3, and includes instructions on how to use each of them:

Section	Title	Description
Chapter 1	Using NATkit 3	Describes all of the tools and applications available in the Network Analysis Toolkit drawer.

Obtaining Documentation

The following provides online sources for obtaining documentation from Cisco Systems, as well as a resource for submitting feedback.

World Wide Web

You can access the most current Cisco documentation on the World Wide Web at the following sites:

- http://www.cisco.com
- http://www-china.cisco.com
- http://www-europe.cisco.com

Documentation Feedback

You can e-mail your comments to **natkit-docs@cisco.com**. We appreciate your comments.

Using the Online Help System

RME and NATkit 3 ship with an online help system that provides an overview of each task type and any procedures for them, as well as additional information to many of the tasks and tools discussed in this manual. Use the online help system to get information about using the RME/NATkit 3 interface and navigating within both. You can access the online help in two ways:

- Click the **Help** button located above the Home drawer.

- Click the **Help** button from any NATkit 3 screen to go directly to that topic.
