Guide to Cisco Multiservice Switch Documentation (May 2003)

This guide explains how to access release notes and product manuals for multiservice switching products.

Our products ship with this guide and a Documentation CD-ROM. Starting in June 2002, Cisco multiservice switching products no longer ship with printed release notes. Instead, release notes are available online and on the Documentation CD-ROM. This change ensures that you receive the latest release notes, because printed release notes might be obsolete or outdated.

To Access or Print Release Notes

Multiservice switch release notes are on the Documentation CD-ROM. They are also accessible from the following URL: http://www.cisco.com/univercd/cc/td/doc/product/wanbu/index.htm. Table 1 lists the May 2003 product release versions and their corresponding release notes.

Table 1   May 2003 Product Release Versions and Release Notes

Switch or Component Description	Release Version	Release Notes	Release Note Part Number (Online)
Cisco WAN Manager (CWM)	CWM 12.0.00	Release Notes for Cisco WAN Manager Release 12.0.00 for Solaris 8	OL-3188-01

Table 1   May 2003 Product Release Versions and Release Notes (continued)

Switch or Component Description	Release Version	Release Notes	Release Note Part Number (Online)
Route Processor Module (RPM)	RPM/B and RPM-PR: Cisco IOS 12.2(11)T1	Release Notes for Cisco MGX Route Processor Module (RPM/B and RPM-PR) for MGX Release 1.2.11 and MGX Release 3.0.10	OL-2913-01
	RPM-XF: Cisco IOS 12.2(11)YP	Release Notes for Cisco MGX Route Processor Module (RPM-XF) for Release 3.0.10 for MGX 8850 (PXM45) and MGX 8950	OL-2912-01
Cisco MGX 8850 (PXM45), Cisco MGX 8850 (PXM1E), Cisco MGX 8950, Cisco MGX 8830	MGX 4.0.00	Release Notes for Cisco MGX 8850 (PXM45/PXM1E), Cisco MGX 8950, and MGX 8830, Software Version 4.0.00	OL-3245-01
Cisco MGX 8230, Cisco MGX 8250, Cisco MGX 8850 (PXM1)	MGX 1.2.20	Release Notes for Cisco MGX 8230, MGX 8250, and MGX 8850 (PXM1), Software Version 1.2.20	OL-3244-01

Note The June 2002 product release included two new PNNI routing switches: the Cisco MGX 8830 and the Cisco MGX 8850 (PXM1E). For clarity, the Cisco MGX 8850 switch will now be referred to by the type of processor card it uses, for example, MGX 8850 (PXM1), MGX 8850 (PXM1E), or MGX 8850 (PXM45). These new titles will help you access compatible documentation. The release notes contain more information about these new switches.

Release notes cannot be ordered, but can be printed from the online PDF files. To access release notes online, you need to know the release version (see Table 1). Release notes are generally organized as follows: *Switch name, Release notes*, *Release version*. The following sample procedure describes how to find and print the Cisco MGX 8950 Release 4.0.00 release notes:

Step 1   Go to the following URL: http://www.cisco.com/univercd/cc/td/doc/product/wanbu/index.htm.

Step 2   Click on **MGX 8950**.

Step 3   Click on **Release Notes**.

Step 4   Click on **4.0.00 Release Notes for MGX 8950**.

Step 5   Click on the PDF icon in the top right corner.

Step 6   Download the release notes to your hard drive or print them.

Note PDF files of the release notes or manuals cannot be printed from the Cisco Documentation CD-ROM if the computer that the CD-ROM has been installed on does not have internet connectivity to the external www.cisco.com site. Clicking on the PDF icon or links to full-book PDF files on the Documentation CD-ROM with no external internet connectivity results in a spurious error message.

To Access or Print Product Manuals

Multiservice switch product manuals are on the Documentation CD-ROM. They are also accessible from the following URL: http://www.cisco.com/univercd/cc/td/doc/product/wanbu/index.htm. They can be printed from the online PDF file. The manuals that support the May 2003 release are listed in Table 2.

1. Additional manuals that support RPM-PR and RPM/B are cited in the "Related Documentation" section of the RPM release notes.

2. The manuals that support the PXM1-based MGX switch family are cited in the "Related Documentation" section of the PXM1-based MGX release notes.

To access manuals online, you need to know the release version number (see Table 1). Online product manuals are generally organized as follows: *Switch name, Release version, Document title*. The following sample procedure describes how to find and print the *Cisco MGX 8850 (PXM1E/PXM45), Cisco MGX 8950, and Cisco MGX 8830 Command Reference, Release 4*:

Step 1 Go to the following URL: http://www.cisco.com/univercd/cc/td/doc/product/wanbu/index.htm.

Step 2 Click on **MGX 8950**.

Step 3 Click on **Release 4**.

Step 4 Click on **MGX 8850 (PXM1E/PXM45), MGX 8950, and MGX 8830 Command Reference, Release 4**.

Step 5 Click on the PDF icon in the top right corner to download the manual to your hard drive or print it.

To Order Product Manuals

Documents in this release are available online only. They cannot be ordered. To order other manuals, you need to know the DOC number. The DOC number includes the = symbol. Manuals with an OL- number are available *online only*.

Note Printed documentation is shipped separately from your product order.

The way you place an order depends on whether you are a Cisco.com user.

- Registered Cisco.com users (Cisco direct customers) can order Cisco product documentation from the Networking Products MarketPlace at http://www.cisco.com/cgi-bin/order/order_root.pl

- Registered Cisco.com users can order the Documentation CD-ROM through the online Subscription Store at http://www.cisco.com/go/subscription

- Nonregistered Cisco.com users can order documentation through a local account representative by calling Cisco Systems Corporate Headquarters (California, U.S.A.) at 408 526-7208 or, elsewhere in North America, by calling 800 553-NETS (6387).

World Wide Web
